## Clean Air Act Forums July 31 and August 2, 2012

## **Participant Questions**

- 1. In your agency's experience implementing the Clean Air Act (CAA), what is working well? What is not working well?
- 2. Do state and local governments have sufficient autonomy and flexibility to address local conditions and needs?
- 3. Does the current system balance federal, state, and tribal roles to provide timely, accurate permitting for business activities, balancing environment protection and economic growth?
- 4. Does the CAA support a reasonable and effective mechanism for federal, state, tribal and local cooperation through State Implementation Plans? How could the mechanism be improved?
- 5. Are cross-state air pollution issues coordinated well under the existing framework?
- 6. Are there other issues, ideas or concerns relating to the role of federalism under the CAA that you would like to discuss?
